Summary

I have graduated with Master's in Computer Science from University of Central Missouri (May-2020).

With 3+ years of experience in databases, data engineering, machine learning, and End-to-End Testing. I delivered cost-effective, high-performance technology solutions to meet shifting organizational demands. I have worked on both structured and unstructured data by implementing machine learning techniques to generate business insights.

Aspiring software developer with interest in Data Science, Machine Learning, Data Analysis, Data Engineering, and Data visualization.

I believe that data can change the world. All you need is to unveil these hidden patterns from data.

When I am not around my laptop playing with data, I like to play Cricket and Badminton.

Currently, gaining knowledge of Deep Learning.
