# Shobhit Anupriya Sinha

• Research Intern @IIITD • Lead @GirlScript Patiala • Core @DSC TIET • Exploring Quant Research • Former Intern @OpenGenus • Junior Year, Thapar University

Delhi

## Summary

This is Shobhit Sinha, a junior year undergraduate student pursuing my bachelor's in Engineering from Thapar University, Patiala. My background is filled with exploration in the field of Marketing, Content & strategy in past to Research, Coding, Projects, Data Analysis & Development at present. With a creative attitude of problem-solving to maximize opportunities by connecting every customer with personal support is my aim.

Right from the start I was very curious and wanted to try & experiment a different set of fields that I came across. I wanted to challenge myself as much as I can. I completed two internships as a Content Writer Intern and Social Media Marketing Intern at Jeet and Thrillzone NGO respectively by the end of the first year.

In the second year, the journey in the technical field started. Fortunately, I managed to accomplish various things: Creating an app on Assistant, HacktoberFest etc. organizing tech talks, competitions and Hackathon and delivering a talk on Edge computing,

Soon after 3rd semester, I got an opportunity to intern as Research Scientist at OpenGenus Foundation. And as soon as I was done with my internship, I got an amazing offer to Intern at Indraprastha Institute of Information & Technology, Delhi under CSED-Head Dr Vikram Goyal and Shad Akhtar in spatial temporal Data Analytics.

I'm currently heading two separate communities GirlScript Patiala (Lead) and TEDxTIET(Head of Technical and staging).

During these years of my college, I have done 10+ courses and gained a lot of knowledge across various domain that I would love to incorporate dealing with the current scenario.

Moreover, I've completed 7+ projects (1 internship project, 3 main and some small projects) in the field of Data Analysis, Web Development and Messaging based.

You can check my Github profile for the same:

<https://github.com/Shobhs13>

Apart from that,

- I recently volunteered with UNV INDIA for the COVID-19 campaign.
- I am a writer at Quora who have over 500K+ views writing all about JEE, JEET Academy, success, failure, habit & ideas for a good living.

<https://www.quora.com/profile/Shobhit-Sinha-18>

I won't call my self a Kaggle as of now as I'm new to it, But, if you want to have a look at it.

<https://www.kaggle.com/shobhitsinha>

I'll be soon starting to write more on Medium as well.

<https://medium.com/@shobhitsinha13>

That was all for my bio!

I'm still learning the logic behind various data fields as well and also open to all opportunities in the field on Data Analyst, Research Analyst and Project Management.

---
